8 km in length - shows the perfect mood of the developer Simbine Auerdem is the WTCC Extreme a class based on Class Official FIA International Automobile Federation known only as WTCC.. The Simbine really tries to hit players from all over the world with other important points as well as many cars.. Not only Nordschleife but all tracks of the game were correctly reproduced by GPS and DAK data to click as authentic as possible to emulate.. Afrika Korps offers a unique singleplayer experience that includes a management phase at the beginning of each mission to prepare the match.. This track is the most notorious of all racetracks because of its incredible difficulty The track is considered the most luminous race track ever built - known as Green Hell.
