Superior quality based on real materials. Absolutely the best VR for astronomy.. I use to play this game on a floppy disk when I was 8. When I saw it on steam I HAD to get it. Its a great puzzle game to get lost in. I would suggest Chip's Challenge to anyone of any age!. I just finished this game and my jaw just hit the table.

This was my first ever Telltale game, and it certainly won't be the last.

This game is absolutely amazing, there are tons of choices that really matter and you really get to bond with the characters and their development.

Add a bazillion of the classic Borderlands humor and just wow, the game is packed with so many situation that even the best could never anticipate.

Oh and cons:

- Can never have a first time experience again
- My life is empty now
- It takes an hour to download Borderlands 2

Would not recomend this game, it's a must buy!. absolutely love this game. i love the characters, everything is so cute and its relaxing to play. really enjoyable :). This game has a sweet flamethrower.. Short but quite fun! The sprite and background qualities aren't quite what I'd like, and the translation is adequate but contains many slight mistakes. The story isn't perfect, and the paths fairly cliched, but nonetheless very touching. Would recommend reading on new years for sure. My favourite part is probably the CGs- they're gorgeous! Kinda odd improvement in quality compared to a fair bit of the game but hey no complaints here, love them.

Small complaint considering it's just a short, one-off game, but the achievement appear to be broken? I assume 5 of them should be for the main paths but I didn't seem to get any deposite reading all of them.. Short, yet satisfying.. It seems okay but I CANT FIND ANY DUCKS ANYWHERE, NOT EVEN ANY GOD DAMN FEATHERS OR NEED ZONES FOR THEM, ALSO WHERE THE HECK ARE THE FLOCKS, I NEVER SEE ANY!

IF YOU PLAY BUY THIS FOR DISCOUNT, YOU CUUUUNNNNNNTTTTTTTT!!!!!!  
BUY THIS OR RIOT!!!

SAVE ALL CUTE CATGIRLS, DON'T WAIT A DISCOUNT TO SAVE ALL CUTE CATGIRLS!!!!!! I absolutely love the game! It has so much gameplay like the vehicles, training are etc. I also enjoy and laugh at how the ragdoll physics work! I really love the game but I refunded it by accident!!! D: I really hope I can buy it back soon! But other than that I really love and recommend this game!. Reminds me of Gate of Thunder for those of us who go back to the Turbo Duo days some 20+ years ago. Too bad the soundtrack didn't follow it here to Tiamat X.. Excellent game. Nice old-school graphics. Stealth is a must! Collect the items, complete certain level requirements for achievements, which add a bit extra to the gameplay. It won't take more than 30 minutes to complete this game, but it is really enjoyable.

9/10!. Very fun definitely buy if you like J.R.R Tolkien. This is a joke. bought the Season pass to get access to 2 more\u2665\u2665\u2665\u2665\u2665charachers i couldnt give a\u2665\u2665\u2665\u2665\u2665about. And i just found out that i have to pay extra for Black becasue I didnt get pre-order.\u2665\u2665\u2665\u2665\u2665me.. Turns out, my key bindings glitch was fixed. Thanks TargonStudios :). It's a pretty ok program, but I can honestly not recommend this to anyone that's new to digital art or that isn't paitent enough to learn how to make brushes with this program. My first time using this program was already so confusing and foreign, that I just kept to the already included brushes instead of making my own. One thing that a beginner will definitely not be use are the moddiffiers for tilt and pen rotation, since most budget drawing tablets will not include this feature. I can't really say anything for professionals but I can see that this program would be best for those that want to experiment around or have a more unique art style that's a bit difficult to pull off with regular software. I do have to warn though that multiple other users have experienced bugs that can keep you from even using the program.. Incredible game; this is one of my favorites of all time.

ea.0.14b.52 - October 14, 2018. **Crops and gallows:**

This is our first big content update. It contains the new harvesting system. You can create crop fields and choose which crop to grow on. Each crop has a specific season in which it can be cultivated.

There are 3 crops. Corn, wheat and potatoes. Corn is fed to pigs, cattle and sheep. Wheat is needed to make bread and alcohol is extracted from potatoes.

Another new thing is the gallows. If the crime in your city is too high, it helps to hang someone. Only imprisoned residents / bandits can be hanged.

In addition, we have changed some things on the UI, which should help you to notice things faster.

All changes can be seen in the following list:
